Currently in 3B term

WORK EXPERIENCE

Microsoft Dynamics CRM Co-op at ATRIO, Michigan, US Jan - Apr 2016

- Created an official Atrio product called Address AutoComplete (now being sold!) in JavaScript
- Used C# to create an attachment importer application to mass important files into CRM
- Created two software prototypes to demo to prospective clients

Technical Analyst & Programmer at RBC Royal Bank, Toronto, CA May - Aug 2015

- Used VBA for Microsoft Excel and Access to redesign and improve a wholesale banking tool
- Manipulated large databases with SQL in Access
- Created extensive technical documents

PROJECTS AND EXTRA CURRICULARS

- Created deSNAP, an Android app that allows users to send pictures to each other. Worked with a small team of other students with mentorship from Google engineers at deCODE Waterloo 2017.
- Pro bono UX and Design Consultant for a Waterloo Start up
- MIS (Management of Information Systems) Delegate for Laurier's JDC 2017 team. JDC Central is a Canada-wide business case competition where I gained valuable public speaking skills.
- Created Blok.it, a profanity censoring Chrome extension with JavaScript and jQuery what won MLH's #HackHarassment award at QHacks 2017 at Queen's University.
- Worked with two other students to create a text-based dungeon crawler in C++
