EXPERIENCE

Revv (Acquired)

June 2024 - Present

Senior Software Engineer / React, NodeJS, Python

New York City, NY, United States

- Increased free to paid user conversion by 15% and raised total assets under management by 10% by creating our "Discover" feature that showcased top performing stocks and industries.
- Boosted cash deposits by 30% with an automated recurring deposit feature for user paychecks.
- Boosted organic traffic by 20% via SEO improvements: adding sitemaps, raising Lighthouse scores, etc.

Pinstripe (Shutdown)

June 2023 - May 2024

Cofounder, CTO / iOS, Golang, React

New York City, NY, United States

- Developed an iOS application enabling users to shop in NYC with an interactive map, social feed, friend system, and integrated event planner.
- Architected a system supporting thousands of concurrent users with 99.9% uptime and sub-200ms P90 latency, as measured by Datadog.
- Reduced average latency by 30% by leveraging Postgres RPCs to optimize expensive queries
- Built our previous product, an e-commerce app for Shopify merchants, using React, Remix, TypeScript

InvestNext

January 2022 - February 2023

Technical Lead / Python, Django

Remote

- Secured a \$250,000 yearly contract by leading the technical design, development and launch of a security feature enabling system admins to grant users granular access to sensitive investment portfolio data.

Mistplay

June 2020 - December 2021

Software Engineer, Backend & Fraud / TypeScript, Node

Montreal, QC, Canada

- Saved \$30,000+ per month by implementing a fraud detection microservice to flag suspicious activity and shadow-ban malicious users.
- Increased monthly revenue by \$20,000+ by developing an experimentation framework that enabled data scientists to A/B test reward campaigns.
